

Dear participants,

Here is the link to [Towards the Light](#), Delta Hospice Society's online course on OpenLearning. We'd love for you to join the course!

[Towards the Light](#)

Getting to Know Hospice Palliative Care

This course is about getting to know hospice palliative care, the palliative approach and communicating wishes about our future healthcare needs.

It is designed for people with a life-threatening diagnosis and their family and friends, as well as caregivers, students, health care providers, educators and members of the public who want to learn more.

Participants will learn about the different types of support available throughout the palliative journey, including an introduction to programs and services offered by the Delta Hospice Society located in Delta, British Columbia, Canada.

Please note that this project is funded by the Seed Grants Program, a joint initiative between the BC Centre for Palliative Care and the BC Hospice Palliative Care Association, which is funded through a grant from the Ministry of Health.

To join me in the course, click here:
